This addendum shall revise or clarify Coquitlam Public Library's Request for Proposal: IT Infrastructure Equipment and Installation Services. This addendum shall form part of the contract documents and is to be read, interpreted and coordinated with all other parts. The following information is provided to answer questions raised by Proponents for the above-named project, to the extent referenced and shall become a part thereof.

Question with Responses:

Q1) Are the 2 Exchange Servers configured in a DAG (Data Access Group)?

A) *Coquitlam Public Library currently does not use DAG. It is expected that exchange will be reconfigured for full redundancy per 5.1 sections 8-11*

Q2) Are all current servers Virtual and are they to be migrated V 2 V (Virtual to Virtual)?

A) *All servers are virtual. The methodology for the migration is the proponents responsibility per 5.1 sections 8-11.*

Q3) Is the ILS migration in Scope or out of Scope? (ILS Vendor will either perform migration or assist. SQL Server 2014 needs to be identified because they are 2 very different requirements that needs to be decided upon.) Identify what is required if Assistance is needed, or if full migration is required what are those scopes?

A) *The required servers need to be installed and fully configured. The ILS Vendor will then perform the migration of services and specific ILS configurations.*
